

One World-One People-One Dream

EMPIRE OF PLATIGOLAND

CONSTITUTION

June 06th, 2026

Preamble

The Empire of Platigoland is a European nation with the sole mission of making the world a better place, especially by acknowledging and rewarding good deeds in a manner that exalts the goodness in people. Platigoland shall abide by all internationally recognized rules and promote universal values and best practices, unless a given rule, value, or practice is deemed incompatible with the present constitution.

EXCELLENCE (EOP) token is the official currency of Platigoland, and the Platigan Government is responsible for ensuring its sustainable appreciation and survival. The main purpose of the EXCELLENCE (EOP) token is to serve as the people's token, and be used for rewarding creativity, academic and professional excellence, as well as significant acts of humanity.

The leaders of Platigoland are those who have pledged to always act in good faith and take into account the fundamental rights, freedoms and interests of the citizens of the world, especially the holders of the EXCELLENCE (EOP) token. Each member of Government must demonstrate a reasonable degree of integrity and humility, and be committed to pursuing sustainable benefits, rather than immediate ones. They shall not interfere in the political affairs of other sovereign states, be it in words or in deeds, at least not in their official capacities.

Platigoland shall not claim any territory of any sovereign State. However, nothing prevents it from acquiring its land or territories, in conformity with the applicable laws.

The Government of Platigoland may create legal entities and mandate them to represent the nation, conclude contracts on its behalf and defend its interests whenever necessary. Such entities may as well be of a commercial nature.
